**SonoScape**

## MIS Solutions

Trailblazing innovation at the forefront of precision diagnostics and treatment

# X-2600

Integrated Camera System

## The compatibility that simplifies your workflow

Explore our expanding portfolio of X20 series flexible endoscopes, catering to various specialties such as gastrointestinal, pulmonology, urology, and surgical disciplines. Additionally, we offer four types of lightweight camera heads with universal mounting, facilitating connections to both rigid and fiber endoscopes.

Powerful chip

FHD 1080P

SFI

VIST

### The visual field you can truly trust

X-2600's powerful chip allows an optimal image adjustment without delay, and outputs sharp, true-to-colour images.

### The technology you may rely on

SonoScape's chromoendoscopy SFI/VIST technology may help you in lesion detection and in-vivo diagnosis.

Tactile control panel

One-tap screen lock

Built-in recording

2-LED

50000+ hours

### The interaction at your fingertips

Thanks to the one-of-a-kind tactile control panel, interacting with X-2600 can't be easier.

### The optical excellence you called for

You will obtain a noticeably brighter, high-quality image with minimal light loss and maximal mucosal details.

Hub to PACS

Hub to Patient Case Report

Hub to Information Management System

### The smart data management you work with

X-2600's built-in patient information management system allows efficient data entry, while the case report function enables image marking and structured report drafting. Its DICOM capability ensures seamless transfer of images, videos, and reports to the PACS system.
